

# Joel Goodrum

Software Engineer

**Address:** 4700 Elam Forest Drive Stone Mountain, GA 30083

**Phone:** (404) 707-5912

**Portfolio:** <https://joelgoodrum.github.io>

**GitHub:** <https://github.com/JoelGoodrum>

**Email:** joelgoodrum@hotmail.com

**LinkedIn:** [www.linkedin.com/in/joel-goodrum](http://www.linkedin.com/in/joel-goodrum)

## ACADEMICS

---

08/16 – 08/19      **Associate Degree in Computer Science**  
(expected)      *Georgia State University Clarkston Campus – Clarkston, GA*  
Current GPA: 3.45

## SUMMARY

---

Major interests include **web development**, **object-oriented programming** and **game development**. Strongest programming language is **Java**.

## SKILLS

---

**PROGRAMMING LANGUAGES:** Java, JavaScript, html, CSS, SQL.

**FRAMEWORKS & PLATFORMS:** JavaFX, Bootstrap, Git, Node.js, jQuery, React-Native.

## PROJECTS

---

**Task Manager:** Application that allows the user to create and delete tasks. The user interface designed with **html**, **CSS** and **Bootstrap**. The applications' data is stored in a **SQL** database. The data from the database is requested and received through **Express.js** functions.

**Graphing Calculator:** Application that allows user to input functions in the form  $y = x$ . The software outputs the y values and plots them on a graph. The software plots thousands of individual points giving the illusion that the illustrations are curved or straight lines. Graphing Calculator is written in **Java** using the **JavaFX** library.

## EMPLOYMENT
